Condition Report

Good afternoon. This car, like the other four in the auction, was driven on to the car transporter so the engine has very recently 'worked'. It was MOT'd on Monday this week. It is being sold for the family of the now deceased owner. Whilst we cannot, for obvious reasons, guarantee its running order or reliability, it is has been very recently serviced, the condition of the exterior and interior is nice and clear from the additional images on McTear's website. If you would like additional images posted, please email bwc@mctears.co.uk and please describe what you would like images of.
