AN EARLY 20TH CENTURY INDIAN IVORY CARVING OF A BOAT AND TWO FIGURES

EARLY 20TH CENTURY INDIAN IVORY CARVING OF A BOAT, with figures in relief and on a rectangular base, 20cm long, along with two ivory figures (3)

Condition Report

The boat. All figures appear to be present, though not all with complete 'oars'.

There are small holes to the top section of the boat cabin that suggest pieces that insert there are missing. One foot of the rectangular base is a replacement.

The figure with bird has a crack to back. The other figure is missing events from each hand.

- these defects are all shown in added images.
